

Iris

Variable Height Profiling Shower Table

REF. 3600.00

Iris – Is a new and innovative product from Reval. Iris has been designed to facilitate shower bathing and hygiene routines, for patients and service users with a wide range of postural and cognitive challenges. It's three section profiling mattress platform can be adjusted to provide specific postural support in the four key regions of the anatomy, head, back, seat, and legs providing maximum safety, support, and comfort. Iris is also kind on the care provider thanks to its variable seat and platform height adjustment. Care workers can maximise their comfort and safety using this function which enhances their wellbeing. Iris is also a mobile patient transfer system and can be used to transfer patients and service users in the horizontal or seated position. To compliment the Reval IRIS. Reval manufactures a wall mounted shower and sluice systems. When incorporated into the room design, these appliances help to maximise the working space, creating a more practical working environment.

Bathing and Hygiene

Iris

SPECIFICATIONS:

Chassis

- Aluminium & paint finished rolling chassis.
- Aluminium actuator column.
- ABS plastic chassis covers.
- x 4 Guiding and braking castors.
- Steering handle.

Platform

- x3 Articulating patient support sections in polypropylene.
- Stainless steel articulating hinges and fixations.
- x6 Stainless steel security side rails with locking functions.
- Removable stainless steel foot end rail.
- Tilting stainless steel head rail.

Mattress

- Soft PVC waterproof mattress designed for heavy usage.
- Abdominal safety belt.
- Drainage outlet and waste water hose at foot end Ø40mm.
- x2 Triangular headrests, in soft durable waterproof PVC material.

Electric components

- 24Vdc IPX6 rated variable height platform actuator
- 24Vdc IPX6 rated backrest actuator
- 24Vdc IPX6 rated legrest actuator
- 24Vdc IPX6 rated retracting chassis actuator
- IPX6 Control module
- IPX6 8 function hand set
- 5Ah / 24V Battery
- 24V battery and charger module.

Performance:

- SWL – Max patient weight 160Kg
- Weight of appliance – 74Kg
- Usage capacity - max 35 cycles @ 80Kg

Conformity:

- 93/42/CEE (Medical Equipment Directive)
- NF EN 12182 (Tech. support systems for less abled persons)
- NF EN 1441 (Risk analysis for medical equipment)

Options & Accessories:

- 3600.10 Additional battery
- 3600.20 Extra charger and base for batteries
- 3600.30 Chassis raised by 7cm / D125mm wheels with brakes
- 3600.40 8-button wireless remote + receiver + support

Warranty:

- 2 years.
