SUSTAINABLE WELL-BEING

Patient Transfer

Vivo

BENEFITS

Floor transfers

4 function control

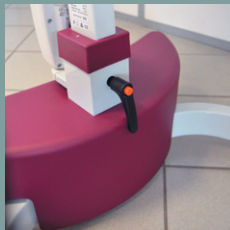

Emergency lowering device

- High lifting range.
- SWL 200kg.
- Light and easy to handle.
- Facilitate floor lifts with ease .
- Detachable scale system.
- Wide range of accessories.

Emergency stop

Removable mast

Scale system (optional)

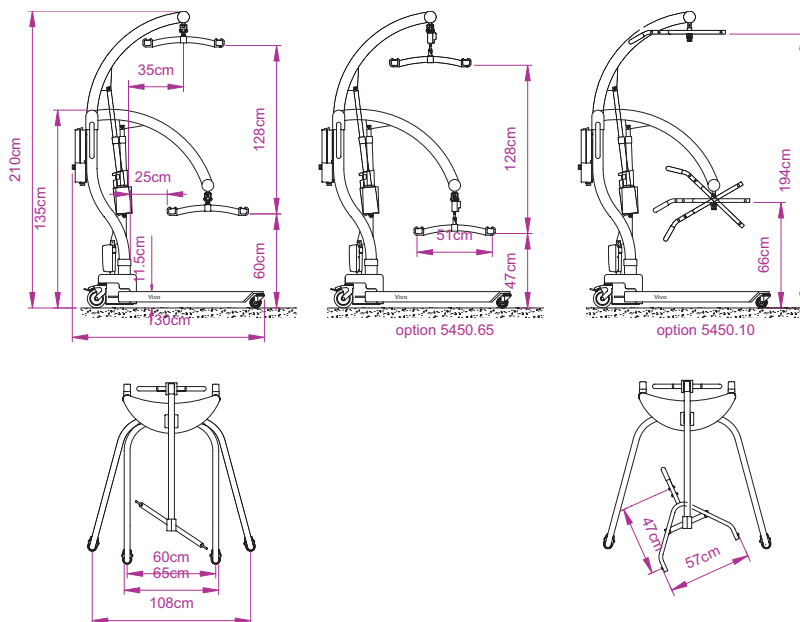

4 point spreader bar (clip type)

8 point stretcher

Powered Patient Hoist

REF. 5450.00

FEATURES:

- Epoxy coated light weight aluminium chassis.
- Removable mast.
- Ergonomic push handles.
- Four easy glide castors, two with integral brakes.
- Four function hand control.

TECHNICAL SCOPE:

- Lift range 128 cms
- SWL 200 kg
- Lift speed 0.08 m/s
- Product weight 38 kg
- Minimal turning radius 135 cms
- Lift cycle - 40 lift/lower cycles @ 130kg

ELECTRICITY:

- 24V dc batteries 2,9Ah
- Audible battery alarm @ 50% capacity
- Internal battery charger
- Recharge time 4 hours
- Power : 10A under 24 volts

ACTUATION:

- 24V electric actuator, lift range 300mm
- 24V electric base actuator, lift range 100mm

SAFETY FUNCTIONS:

- Emergency stop button.
- Anti-entrapment device (when lowering)
- Emergency lowering system.

ACCESSORIES:

- Réf. 5450.65 Reval Scale system 200kg, class III approved
- Réf. 5450.10 Four point spreader bar with tilt and pivoting function
- Réf. 5497.00 8-point traversing stretcher with mechanical leveller
- Réf. 5450.20 Additional 24V battery + external charger

CONFORMITY:

- 93/42/CEE (Medical Devices Directive)
- NF EN10535 (Patient Hoists)
